

# Gunner's Dog House RUBBER SQUEAKERS

**CUZ!!! GOOD, BAD, THE OTHER, and DINO... WE'VE GOT A PILE OF THEM!** Hard rubber, squeaky, bouncy ball with feet to give your dog an extra dose of fun during playtime. Designed to unleash the energetic spirit within your dog, these durable rubber friends hold up to the tough love your puppy/dog shows to his favorite toys!

Gunner barks : This is an absolute favorite of mine! The squeaker is SOooooo loud it drives mom crazy!

Blaze barks : I've heard rumors of some dogs chewing the legs off hence the reason for the different kinds of legs available – but I never have. However, if mom lets me, I'll chew the squeaker out but it takes me days of concentrating on it. When it does come out – it doesn't ruin the Cuz at all – it comes out in a perfect circle.

Mom says : I've got about 10 of these fabulous fetching toys all over the house and yard. Some are over a year old and still doing well. The only ones I've "lost" are the ones I caught with the riding lawn mower! Overall – great investment except the squeaker can drive you crazy!  
\*lol\*

Worth Mentioning : We've got the LARGE and MEDIUM size CUZs. For some reason my dogs all play with the medium and very rarely LOOK at the large. Also, for throwing – the medium is just smaller than a soft ball and a tad bigger than a baseball so great for throwing.
