

Gunner's Dog House FIRE HOSE!

These fire hose toys are made from the same tough, durable material that firemen use. This material consists of a rubber lining and multiple layers of tightly woven fabric. The ends of the toys are doubled stitched with no exposed seams. This provides excellent resistance to abrasion and superior strength for a soft dog toy! Average Toy Size Range: 2.5"W x 8"H x 1.5"D small through 4"W x 16"H x 2.5"D large
