

# Gunner's Dog House

## Jolly Critters II™

Jolly Critters II™s, Raccoon, Squirrel and Chipmunk are your pet's favorite floatable, squeakable, fetchable, tossable, most lovable critters around.

The tail forms a handle so the Critters are easier to pick up and have a long lasting vanilla scent that dogs will love. Low-density, non-toxic polyethylene is puncture resistant and safe for everyone.

JC205 - 5"  
JC245 - 4.5"  
JC203 - 3"

Jolly Pets has done it again. They have combined two classic dog toys, the common Tug-N-Toss Jolly Ball and the squeaker toy to create the entertaining Vanilla Scented Jolly Critters II dog toy. Squeeze the body of the Squirrel, Raccoon or Chipmunk toy to hear a high-pitched squeak and then release the toy and listen to it make a hissing noise as it sails through the air. This toy is becoming a favorite in the sport of Ultimate Air Dogs. Jolly Critter dog toys are large enough that they can be seen floating on top of the water during dock diving. Citter dog toys come with a handle so your dog can bring it back. Critters II balls are manufactured only with top quality, puncture-resistant toys for interactive play. Made from non-toxic, durable, Polyethylene, so it is safe for everyone. Squirrel, Raccoon or Chipmunk Critters float and are durable for ruff and tuff dogs. Dogs enjoy the dog toys for retrieving and active play.
