

# Gunner's Dog House

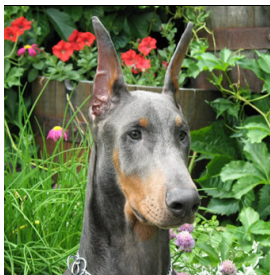

**The Grass Ball** : A tough rubber dog toy infused with vanilla extract that is as versatile as it is fun! This innovative ball is super durable and double-molded to stand up to tough chewers. The spiked top and bottom makes the Grass Ball a top choice for teeth cleaning, and the smooth sides make it an excellent fetch toy. The openings on each side allow the Grass Ball to be used as a treat ball too!

**JW Pet Amaze-A-Ball Treat Dispenser Rubber Ball Dog Toy** : This great rubber bouncing ball is also a treat ball. Treats go in one side. As your dog plays with the ball the treats go through a maze inside the ball and eventually fall out. These tough rubber toys were developed for and by pet owners in order to provide a superior outlet for interactive fun between dog and owner, as well as for the play and exercise of the dog by itself. Pliable, resilient natural rubber has proven itself to be the best material to satisfy the dog's normal craving to chew

**JW Giggler Ball** : Giggle, giggle! It's the hard rubber dog toy with a sense of humor from JW Pet that's gonna keep your dog entertained for hours. The Giggler Ball is made from a thick wall of solid rubber that "giggles" as the ball shakes or rolls. Makes a game of fetch fun for both the dog and the owner!

**The Silver Streak** : combines two rough & tough materials; rubber with tough nylon for out of this world style and fun. The nylon strap is double stitched to hold strong. It has a rubber ball infused with vanilla extract securely fastened to its end. The Silver Streak is built to fling, fly & fetch, also great for games of tug-of-war. Excellent for retrievers and high energy breeds.
