

Gunner's Dog House

The TreatStik® is a very tough Nylon MEAL and TREAT dispensing toy that will offer your dog hours of mentally stimulating fun. As your dog nudges & rolls the toy it randomly dispenses its hidden treats. It stimulates your dog's mind, while relieving boredom and separation anxiety. It also helps with weight control! It is a deterrent from destructive behavior that can stand up to very strong chewers. The large Treatstik can hold up to 1.5 cups of your dogs favorite treats or daily meal, while the small size holds .5 cups.

*Large screw cap for easy filling

*Dishwasher safe

***Made in the USA**

* Made of heavy-duty non-toxic nylon

Sizes: Small is 6" long and is best for dogs 10 - 40 lbs, and Large is 9" long and is best for dogs over 40 lbs.

How to Play!

#1 Unscrew the large cap

#2 Fill the toy with treats, kibble, dried veggies or anything that will fit through the hole

#3 Screw cap back on (hand tighten)

#4 Place on floor and roll so treats fall out

#5 Allow your dog time to learn and play

Safety Instructions :

No toy is indestructible. Supervise use.

Inspect the treatstik frequently. Look for cracks, missing pieces, tears, etc.

Replace worn or damaged toy immediately.

If you think your dog has swallowed loose pieces, immediately call your veterinarian.

Not meant to be a chew toy.

IF ANY PART OF YOUR DOGS JAW CAN FIT THROUGH THE SMALL HOLE, DO NOT PURCHASE THIS PRODUCT.

Not for toy dogs.

Tips for Longer Play!

Put in kibble that is small enough to fit through the hole

AND put in kibble that is too large to fit through the hole

Once the small kibble is gone, your dog will continue to play because they know there is still food inside!

What kind of treats can I use?!?

Any food, treats or kibble that will fit through the small hole can be used.

This can include... any small treats or kibble, food, cut vegetables (such as celery or carrots), etc.
