MIGHTY® Dog Toys

Mighty® Dog Toys *rethink durability* and approach it from a new angle.

Durability is created for each toy with multiple layers of flexible materials that move with the dog's teeth instead of tearing. Compared to other toys, Mighty® dog toys have no hard edges. The result is that these toys do not promote chewing – great when you're trying to discourage chewing habits. These toys may seem plush on the outside, but all the durability features are internal making these toys soft, yet MIGHTY® strong.

Outside layer is made of a tight-woven sherpa-style fleece - the result is good flexibility with high durability.

All material seams are covered with a layer of soft, flexible material and sewn together with another two rows of stitching.

Two rows of stitching creates increased durability.

A layer of tight-woven brushed fleece of the heaviest weight and highest durability.
